Course Evaluation System

Instructor: Buddhi Rai

Campus: Univ of Hawaii Maui College

Department: Physics

Semester: Spring 2021

Course: PHYS152 Crn (Section): 46232 (0)

Enrollment: 14

1. The instructor broadened my understanding and grasp of the subject.

	Mean	N-Size	Std Dev		Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
Univ of Hawaii Maui College	4.61	1563	0.78	Freq(%)	17 (1%)	12 (1%)	89 (6%)	297 (19%)	1142 (73%)

7. Other comments:
Very interactive and fun course learning how electricity and its components work in the world.
I swear Professor Buddhi is the best teacher EVER!! He makes physics class so fun and entertaining. He loves to joke around during lectures & treats you like an actual person, not just a lame college student. If I had the opportunity to take physics all over again I would TOTALLY take it from him!!
Great professor. I had the pleasure of taking both PHYS 151 and 152 with this professor and not only learned a great deal, but found I began to enjoy the field of physics - something I had not expected at the start of the year. I appreciate his time and effort towards helping us learn and can tell he is not only very passionate about physics but also about educating students. At the end of the semester he was kind enough to provide students with lunch, which i thought was such a lovely and kind gesture for the students.
The in-person class really portrayed how passionate Mr. Buddhi is at teaching. He's really knowledgeable about physics and explains it in a way where it is easy to grasp. Have developed so many wonders and interests about how the world works because of his class. His class is really the true epitome of what learning should be -- inspiring and encouraging students beyond what they can imagine.
He is very passionate about physics. He is very joyful and loves to teach.

8. State in two or three sentences how this course could be improved.
There could be more opportunities to demonstrate everything in the class.
NOTHING EVERYTHING WAS SUPER GREAT & FUN!!
Perhaps a brief run-through of setting up a lab procedure as a class before execution. Sometimes the class fumbles around for the first hour trying to understand how to set up the demonstration.
Homework problems assigned each week to help keep us on track, and quizzes each week could help too.
Keep it in person. Keep Buddhi as the instructor, forever. He is the best most intelligent person ive ever met.
I think the test should have less short answer questions because it can be a bit time consuming giving less time to answering multiple choice.

9. Which aspects of the course were most valuable?
Jamboard was a great reference for equations, thanks
Being able to see how the physics and math applied to what was happening with each circumstance.
BASICALLY THE WHOLE COURSE!!
Once the labs are set up and running as expected do we see a concept in action (it's very cool).
It was nice to have this class be in person so that more discussions were had. Being in person helped me feel more comfortable and confident in my learning.
The exhibitions -- it provided a more understanding how an idea is, and how it is applied to so many applications of the day-to-day life.
Lecture demonstrations
The understanding and concepts.
An aspect that was most valuable was learning about circuits because it gives you an understanding about how things are powered.

10. The instructor appears to have a thorough knowledge of the subject.
