Course Evaluation System

Instructor: Buddhi Rai

Campus: Univ of Hawaii Maui College

Department: Physics

Semester: Spring 2021

Course: PHYS152L Crn (Section): 46233 (0)

Enrollment: 11

1. The instructor broadened my understanding and grasp of the subject.

	Mean	N-Size	Std Dev		Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
Univ of Hawaii Maui College	4.61	1563	0.78	Freq(%)	17 (1%)	12 (1%)	89 (6%)	297 (19%)	1142 (73%)

7. Other comments:
Great professor. I had the pleasure of taking both PHYS 151 and 152 labs with this professor and not only learned a great deal, but found I began to enjoy the field of physics - something I had not expected at the start of the year. I appreciate his time and effort towards helping us learn and can tell he is not only very passionate about physics but also about educating students. I always appreciated him working with students in the lab, and slowly explaining some of the more difficult lab problems.
Finally was fortunate enough to have an in-person lab this semester. Helped me better understand the lesson. The only regret is that we didn't get to have the lab in person last semester. But regardless, I still enjoyed this lab.
Buddhi Rai has been one of my favorite teachers throughout this semester. In fall when PHYS was online I didn't quite resonate with the course. Throughout this entire semester I have been exclaiming how much I love this course. Physics courses taught by Buddhi should one thousand percent be taught in person. His energy is infectious. He built a report with me as a student that assured that I was in class everyday. I wanted to be there everyday. I enjoyed learning from him, I enjoyed listening to him, I enjoyed getting to know him and his story. He made each class fun and unique. He gave us the opportunity to not only learn, but to excel. I personally feel like I performed the best in this course, out of all my courses this semester. I was happy coming to class everyday and felt a connection to this course. I am a molecular biology major, but after spending this past not only semester, but year with Buddhi I almost considered changing my major to physics. He instilled a confidence in me that I truly appreciate.
The lab really helps to solidify understanding by actually putting the concepts and formulas to work.
He is very knowledgeable and passionate.

8. State in two or three sentences how this course could be improved.
To allow more notes during exams would be awesome.
I personally thrived in this course because it was in person. Buddhi is a great teacher but for me as an individual I benefited more from the in person courses.
I think he should briefly demonstrate how to do the lab first before student's start on the lab. This will help avoid confusion.

9. Which aspects of the course were most valuable?
This course helped me apply the lecture equations more than the homework assignments, very good exam preparation
The in-class demonstrations and problem-solving.
The formulas and concepts. Thank you so much Buddhi!
Finally being able to have this class in person was better than trying to do online simulations.
An aspect of the course that was most valuable was learning how to create a circuit and understanding how things are powered.

10. The instructor appears to have a thorough knowledge of the subject.
